ROLINE HDMI Ultra HD Cable + Ethernet, active, M/M, black, 3 m

Product No.	11.04.5913
Manufacturer	ROLINE
Manufacturer No.	11.04.5913
EAN (single piece)	7630049610194

High-quality HDMI connection cable with HDMI connectors for optimal transmission of digital HDTV signals at data rates up to 18 Gbit/s (600MHz). For the transmission of films in digital cinema-quality, with a resolution of up to 3840x2160 @60Hz!

• HDMI Ethernet Channel - Adds high-speed networking to an HDMI link, allowing users to take full advantage of their IP-enabled devices without a separate ethernet cable
• Active connection cable for better data transmission
• Audio Return Channel - Allows an HDMI-connected TV with a built-in tuner to send audio data "upstream" to a surround audio system, eliminating the need for a separate audio cable
• 3D - Defines input/output protocols for major 3D video formats
• Cable with HDMI male connector on both sides
• High quality cable with golden plated shell
• Gold plated contacts for higher durability

The cable works only in one direction.
When connecting, please note which of the cable ends must be connected to the signal source (PC/notebook/Blu-ray player...) and which must be connected to the display device (TV/monitor) in order to achieve optimal transmission of audio and video signals.

Technical specifications	
Manufacturer	ROLINE
Product group	Cable
Product type	HDMI Ultra HD with Ethernet Cable
Colour	black
Length	3 m
Transfer quality	HDMI Ultra High Speed (HDMI 2.0)
Max. resolution	3840 x 2160 @60Hz (4K, UHD-1)
side 1 connector	HDMI 19 Male
side 2 connector	HDMI 19 Male
Side 1 Connector Type	HDMI Type A
Side 1 Connector Gender	Male
Side 2 Connector Type	HDMI Type A
Side 2 Connector Gender	Male
Area of application	External
Cable shielding	Double screened
Technical particularity	HDMI Ultra HD with Ethernet
Weight	67.5 g
Height of packaging (single piece)	10 mm
Width of packaging (single piece)	100 mm
Depth of packaging (single piece)	100 mm
Package weight (single piece)	0.01 kg
