ROLINE 10 inch wall-mounted enclosure 12 U 312x300 WxD grey

Whether in the home, in the office or in sub-distribution boards with limited space - with the compact 10" solutions, you can install your network wherever you need it. The wall-mounted enclosures, which are available in three different height units (6U, 9U, 12U), have a full glass door and a cable entry with brushes in the roof and base. Inside, a pair of galvanised 10" profile rails with readable height units are installed, which can be adjusted in depth. Each enclosure consists of a robust steel construction made of up to 1.5 mm thick sheet steel and is electrostatically powder-coated in the standard colours grey (RAL 7035) and black (RAL 9005). It is possible to change the door hinge. In addition, the cabinets can be completely dismantled if required thanks to their demountable design.

Technical specifications
