ROLINE 19 inch server cabinet 36 U 800x1000 WxD grey

The server enclosures in the ROLINE Pro series have been specially developed for convenient and flexible network cabling. Inlets with brushes, a slide-on inlet with a foam rubber seal and an additional brush inlet in the base chassis are located on the sides of the roof and base (from 800 mm enclosure width), offering a wide range of possible applications. Perforated single-leaf front doors and double-leaf rear doors, each with a swivel handle and profile half cylinder, ensure improved air circulation. The roof has a perforated cover that allows easy installation of a fan module.

Technical specifications
